## Privacy Policy

### **Commitment to Privacy**

The appropriate collection, use and disclosure of patients' personal health information is fundamental to our day-to-day operations and to patient care.

Protecting the privacy and the confidentiality of patient personal information is important to the physicians and staff at Meadowlands Family Health Center.

We strive to provide our patients with excellent medical care and service. Every member of Meadowlands Family Health Center must abide by our commitment to privacy in the handling of personal information.

### **Applicability of this Privacy Policy**

Our Privacy Policy attests to our commitment to privacy and demonstrates the ways we ensure that patient privacy is protected. Our Privacy Policy applies to the personal health information of all our patients that is in our possession and control.

### **What is Personal Health Information?**

Personal Health Information (PHI) means identifying information about an individual relating to their physical or mental health (including medical history), the providing of health care to the individual, payments or eligibility for health care, organ and tissue donation and health number.

### **The 10 Principles of Privacy**

Our Privacy Policy reflects our compliance with fair information practices, applicable laws and standards of practice.

## **1. Accountability**

We take our commitment to securing patient privacy very seriously. Each physician and employee associated with the Practice is responsible for the personal information under his/her control. Our employees are informed about the importance of privacy and receive information periodically to update them about our Privacy Policy and related issues.

## **2. Identifying Purposes: Why We Collect Information**

We ask you for information to establish a relationship and serve your medical needs. We obtain most of our information about you directly from you, or from other health practitioners whom you have seen and authorized to disclose to us. You are entitled to know how we use your information and this is described in the Privacy Statement posted at Meadowlands Family Health Center. We will limit the information we collect to what we need for those purposes, and we will use it only for those purposes. We will obtain your consent if we wish to use your information for other purposes.

## **3. Consent**

You have the right to determine how your personal health information is used and disclosed. For most health care purposes, your consent is implied as a result of your consent to treatment, however, in all other circumstances express consent must be written. Your written Consent will be forwarded to the Privacy Officer (or designate) who will document the request in your medical records and notify appropriate Health care providers and their supporting staff.

Patients who have withdrawn consent to Disclose Personal Health Information (PHI) must sign and date the Consent to Withdrawal Form. It is understood that the consent directive applies only to the PHI which the patient has already provided, and not to PHI which the patient might provide in the future. PHIPA (Personal Health Information Protection Act ) permits certain collections, uses, and disclosures of the PHI, despite the consent directive; healthcare providers may override the consent directive in certain circumstances, such as emergencies. The consent directive may result in delays in receiving health care, reduced quality of care due to health care provider's lacking complete information about the patient. The written Consent to Withdrawal Form will be forwarded to the Privacy Officer (or designate) who will document the request in patient's medical records and notify appropriate Health care providers and their supporting staff.

## **4. Limiting Collection**

We collect information by fair and lawful means and collect only that information which may be necessary for purposes related to the provision of your medical care.

## **5. Limiting Use, Disclosure and Retention**

The information we request from you is used for the purposes defined. We will seek your consent before using the information for purposes beyond the scope of the posted Privacy Statement.

Under no circumstances do we sell patient lists or other personal information to third parties. There are some types of disclosure of your personal health information that may occur as part of this Practice fulfilling its routine obligations and/or practice management. This includes consultations and suppliers to the Practice, on the understanding that they abide by our Privacy Policy, and only to the extent necessary to allow them to provide business services or support to this Practice.

We will retain your information only for the time it is required by law (7 Years) or for the purposes we described and once your personal information is not longer required, it will be destroyed.

Patients may be required to sign and date a Consent to Disclose PHI Form and pay a fee based on current OMA rates prior to release of information, if requested.

## **6. Accuracy**

We endeavour to ensure that all decisions involving your personal information are based upon accurate and timely information. While we will do our best to base our decisions on accurate information, we rely on you to disclose all material information and to inform us of any relevant changes.

## **7. Safeguard: Protecting Your Information**

We protect your information with appropriate safeguards and security measures. The Practice maintains personal information in a combination of paper and electronic files. Recent EMR (electronic medical records) concerning individuals information are stored in files/computer kept onsite at our office (backup secured secondary computer off site). Older paper records may be stored securely off site.

Access to personal information will be authorized only for the physicians and employees associated with the Practice, and other agents who require access in the performance of their duties, and to those otherwise authorized by law.

We provide information to health care providers acting on your behalf, on the understanding that they are also bound by law and ethics to safeguard your privacy. Other

organizations and agents must agree to abide by our Privacy Policy and may be asked to sign contracts to that effect. We will give them only the information necessary to perform the services for which they are engaged, and will require that they not store, use or disclose the information for purposes other than to carry out those services.

Our computer systems are password-secured and constructed in such a way that only authorized individuals can access secure systems and databases.

We do not usually communicate by email. But, if you send us an e-mail message that includes personal information, such as your name included in the “address”, we may use that information to respond to your inquiry. Please remember that e-mail is not necessarily secure against interception. If your communication is very sensitive, you should not send it electronically unless the e-mail is encrypted or your browser indicates that the access is secure.

All complete chart transfers, requested and consented by the patient, will be transferred onto a CD, which is then encrypted. The password is mailed separately from the CD.

## **8. Openness: Keeping You Informed**

## **9. Access and Correction**

With limited exceptions, we will give you access to the information we retain about you within a reasonable time, upon presentation of a written request and satisfactory identification.

We may charge you a fee for this service and if so, we will give you notice in advance of processing your request.

Once you have seen your record of PHI, if you believe it is inaccurate or incomplete, you may write to us and ask for a correction. We must reply to your request within 30 days, or later if it is reasonable to do so. You are entitled to be told how long it will take to get back to you if it is longer than 30 days.

## **9. Access and Correction—Continued**

We may not correct a record that was created by someone else and we do not know enough about the record to change it or where, for example, the opinions or observations in the record were made in good faith. You are entitled to be told the reasons for not making a correction and of your right to have a statement of disagreement attached to your records.
